

Bhisha Privacy Notice

Effective Date: [13 March 2020]

Last Updated: [24 July 24, 2026]

1. Introduction

Welcome to **Bhisha.com** ("Bhisha", "Platform", "we", "our", or "us"), a cloud communications platform owned and operated by **Sen Rev Services Private Limited**.

Bhisha is committed to protecting the privacy, confidentiality, integrity, and security of personal information entrusted to us by our customers, users, business partners, website visitors, developers, suppliers, and other individuals who interact with our Platform.

This Privacy Notice explains how we collect, use, disclose, process, store, transfer, retain, and protect personal information when you use our websites, applications, APIs, communication services, customer portals, developer tools, or other products and services.

By accessing or using Bhisha, you acknowledge that you have read and understood this Privacy Notice.

2. Scope

This Privacy Notice applies to:

- Bhisha.com
- Customer Portal
- Developer Portal
- APIs
- SMS Services
- WhatsApp Business Platform
- Rich Communication Services (RCS)
- Voice Services
- Email APIs
- Email Verification
- Number Verification
- Wallet Services
- Billing Services
- Partner Portal
- Support Services
- Mobile Applications
- Future products and services offered by Bhisha

It also applies to visitors of our websites, prospective customers, business partners, vendors, resellers, and authorized users of customer accounts.

3. Privacy Principles

Bhisha processes personal information in accordance with the following core principles:

- Lawfulness
- Fairness
- Transparency
- Purpose Limitation
- Data Minimization
- Accuracy
- Storage Limitation
- Integrity and Confidentiality
- Accountability
- Security by Design
- Privacy by Design

These principles guide the design, operation, and continuous improvement of our Platform and internal processes.

4. Roles and Responsibilities

Depending on the Service provided, Bhisha may act as:

- A **Data Controller**, determining the purposes and means of processing personal information for our own business operations (such as account management, billing, and support); or
- A **Data Processor** (or equivalent role under applicable law), processing personal information on behalf of our business customers in accordance with their documented instructions.

Where Bhisha acts as a processor, the customer remains responsible for ensuring that they have an appropriate legal basis to collect and process personal information through the Services.

5. Information We Collect

The categories of information we may collect include:

A. Account Information

- Name
- Company name
- Job title
- Email address
- Phone number
- Username
- Password (stored securely in hashed form)
- Country
- Language preference

B. Business Information

- Business registration details
- Tax identification numbers
- Billing address
- Company website
- Industry
- KYC/KYB documentation
- Authorized representatives

C. Payment Information

Depending on your payment method, we may collect or receive:

- Billing information
- Transaction references
- Payment status
- Invoice history
- Wallet transactions
- Payment gateway identifiers

Bhisha does not store complete credit card or debit card details. Payment card information is processed by certified third-party payment providers, such as Razorpay or other authorized payment processors, in accordance with applicable payment security standards (including PCI DSS, where applicable).

D. Technical Information

We may automatically collect:

- IP address
- Browser type
- Operating system
- Device identifiers
- Time zone
- API request metadata
- Log files
- Authentication events
- Error reports
- Performance metrics
- Security events

E. Communication Data

Depending on the Services used, we may process:

- Sender and recipient identifiers
- Message metadata
- Delivery status
- Timestamps
- Template identifiers
- Routing information

- Call detail records
- Email delivery events
- Verification request data

The extent of data processed depends on the specific Service and the instructions of our customers.

6. Cookies and Similar Technologies

Bhisha uses cookies and similar technologies to improve the functionality, security, performance, and user experience of the Platform.

Cookies are small text files stored on your device when you visit our website or use certain Platform features.

Depending on your location and applicable law, we may request your consent before placing non-essential cookies on your device.

6.1 Types of Cookies

Bhisha may use:

Essential Cookies

These cookies are necessary for:

- User authentication
- Account login
- Security
- Session management
- Fraud prevention
- Platform functionality

These cookies cannot generally be disabled without affecting the operation of the Platform.

Performance Cookies

These help us understand how users interact with the Platform by collecting aggregated information regarding:

- Page performance
- Navigation
- Platform usage
- Error reporting
- Performance optimization

Functional Cookies

These remember your preferences such as:

- Language
- Region
- Dashboard settings
- Theme preferences
- Recently used services

Analytics Cookies

Subject to applicable law, Bhisha may use analytics technologies to better understand:

- Website traffic
- Customer behavior
- Feature adoption
- API usage trends
- Platform performance

Analytics information is generally aggregated or pseudonymized where reasonably practicable.

Security Cookies

Security technologies help detect:

- Unauthorized access
- Suspicious login attempts
- Fraud
- Bot activity
- Abuse
- Session hijacking

7. Log Files

Bhisha automatically generates operational and security logs when the Platform is used.

These logs may include:

- IP addresses
- Login history
- Authentication events
- Browser information
- Device identifiers
- API request logs
- Error logs
- Security events
- Session identifiers
- System timestamps

Log information helps us:

- Maintain platform security
- Detect fraud
- Troubleshoot issues
- Improve reliability
- Meet regulatory obligations
- Investigate incidents

8. API Logs

When Customers access Bhisha APIs, we may process:

- API Key identifiers
- Request timestamps
- Response status codes
- Destination endpoints
- Usage statistics
- Authentication events
- Rate-limit information
- Error responses

API logs are maintained for operational, billing, security, auditing, and compliance purposes.

9. Device Information

We may automatically collect technical information including:

- Device type
- Operating system
- Browser version
- Screen resolution
- Preferred language
- Device identifiers
- Network information
- Time zone
- Mobile application version

This information helps ensure compatibility, improve performance, and protect against security threats.

10. Browser Storage

The Platform may use browser storage technologies, including local storage or session storage, to enhance user experience, maintain authenticated sessions, remember preferences, and improve performance.

11. Do Not Track

Some web browsers provide a "Do Not Track" (DNT) setting.

Because there is currently no universally accepted standard for responding to DNT signals, Bhisha may not respond to such browser signals. Users may instead manage cookie preferences through available browser settings or our cookie management tools where provided.

12. Cookie Management

Users may manage or disable certain cookies through:

- Browser settings;
- Cookie preference banners or management tools (where available); or
- Device privacy settings.

Disabling certain cookies may affect the availability or functionality of some Platform features.

13. How We Use Personal Information

Bhisha processes personal information only where there is an appropriate legal basis and for legitimate business purposes. Depending on the Services you use, we may use personal information to:

- Create and manage customer accounts.
- Verify identity and business information.
- Deliver communication services.
- Process wallet recharges and payments.
- Generate invoices and billing records.
- Authenticate users.
- Provide customer support.
- Respond to inquiries.
- Maintain platform security.
- Detect fraud and abuse.
- Monitor service performance.
- Comply with legal and regulatory obligations.
- Improve existing products and develop new services.
- Communicate important operational updates.
- Administer customer relationships.
- Enforce our legal agreements.

Bhisha does not sell personal information to third parties.

14. Legal Bases for Processing

Where required by applicable law, Bhisha processes personal information based on one or more of the following legal grounds:

- Performance of a contract.
- Compliance with legal obligations.
- Legitimate business interests.
- Protection of vital interests.
- Consent, where required.
- Public interest or other lawful bases recognized under applicable law.

The applicable legal basis may vary depending on your location and the Services used.

15. Automated Processing

Bhisha may use automated systems to assist with:

- Fraud detection.
- Spam prevention.
- Security monitoring.
- API abuse detection.
- Traffic management.
- Performance optimization.
- Risk assessment.
- Service analytics.

These systems support operational decision-making and security but are not intended to make solely automated decisions that produce legal or similarly significant effects on individuals without appropriate safeguards, where required by applicable law.

16. Marketing Communications

Bhisha may send product updates, newsletters, promotional communications, educational content, event invitations, and service announcements where permitted by applicable law.

Recipients may unsubscribe from marketing communications at any time using the unsubscribe mechanism provided or by contacting our support team.

Operational, transactional, billing, compliance, and security communications are considered essential service communications and may continue even if marketing communications are declined.

17. Product Improvement

Bhisha may analyze aggregated, anonymized, or de-identified information to:

- Improve Platform functionality.
- Enhance customer experience.
- Develop new products.
- Optimize system performance.
- Improve reporting.

- Strengthen security.
- Enhance service reliability.

Where practical, such information will not identify individual users.

18. Fraud Prevention and Security

Bhisha processes personal information to:

- Detect suspicious activity.
- Prevent unauthorized access.
- Investigate abuse.
- Protect customer accounts.
- Secure payment transactions.
- Monitor platform integrity.
- Prevent spam and fraudulent communications.
- Comply with cybersecurity obligations.

These activities help protect both Bhisha and its customers from unauthorized or unlawful use of the Platform.

19. Sharing of Personal Information

Bhisha values your privacy and does **not sell your personal information**. We only share personal information where necessary to provide our Services, comply with legal obligations, protect our legitimate interests, or with your authorization.

19.1 Service Providers

Bhisha may share personal information with trusted third-party service providers who assist us in delivering the Platform, including:

- Cloud infrastructure providers
- Payment processors
- Customer support platforms
- Identity verification providers
- Security service providers
- Monitoring and analytics providers
- Email service providers
- SMS and telecom partners
- Backup and disaster recovery providers

All service providers are required to implement appropriate security measures and process personal information only for authorized purposes.

19.2 Telecom Operators and Messaging Partners

To deliver communication services, Bhisha may transmit relevant communication data to:

- Mobile Network Operators (MNOs)
- Telecom carriers
- SMS aggregators
- WhatsApp Business Platform providers
- Meta Platforms
- RCS providers
- Voice carriers
- Email delivery providers
- Number verification partners

Only the information reasonably necessary to complete the requested communication or service will be shared.

19.3 Payment Providers

When you make payments through Bhisha, payment-related information may be processed by authorized payment providers, banks, financial institutions, and payment gateways.

Bhisha does not store full payment card information. Payment processing is performed by certified third-party payment providers in accordance with applicable security standards.

19.4 Professional Advisors

Bhisha may disclose information to legal counsel, auditors, accountants, insurers, consultants, or other professional advisors where reasonably necessary for business operations, compliance, or legal matters.

19.5 Business Transfers

If Bhisha undergoes a merger, acquisition, corporate restructuring, financing transaction, or sale of assets, personal information may be transferred as part of that transaction, subject to applicable law and appropriate confidentiality obligations.

19.6 Legal Requirements

Bhisha may disclose personal information where required to:

- Comply with applicable laws;
- Respond to lawful requests from courts or competent authorities;
- Enforce our legal agreements;
- Protect our rights or property;
- Prevent fraud or unlawful activities;
- Protect the safety of users or the public.

Where legally permitted, we will make reasonable efforts to limit disclosures to what is necessary.

20. International Data Transfers

As a global communications platform, Bhisha may process or transfer personal information across national borders.

Personal information may be processed in countries where Bhisha, its affiliates, service providers, telecom operators, cloud providers, or technology partners operate.

Where required by applicable law, Bhisha will implement appropriate safeguards for international data transfers, including contractual protections, organizational measures, and technical security controls.

Customers using Bhisha acknowledge that international transfers may be necessary to provide the requested Services.

21. Subprocessors

Bhisha may engage carefully selected subprocessors to assist in delivering the Services.

Subprocessors may provide services including:

- Cloud hosting
- Infrastructure
- Payment processing
- Identity verification
- Monitoring
- Customer support
- Security
- Communication delivery
- Analytics

Bhisha remains responsible for managing subprocessors in accordance with applicable law and contractual obligations.

22. Data Retention

Bhisha retains personal information only for as long as necessary to:

- Provide Services;
- Maintain customer accounts;
- Process transactions;
- Comply with legal obligations;
- Resolve disputes;
- Enforce agreements;
- Detect fraud;
- Maintain security;
- Meet accounting, tax, telecommunications, and regulatory requirements.

Retention periods vary depending on the nature of the information, applicable laws, contractual obligations, and operational requirements.

23. Secure Storage

Bhisha implements commercially reasonable administrative, technical, and physical safeguards designed to protect personal information against unauthorized access, alteration, disclosure, destruction, or loss.

Security measures may include:

- Encryption in transit and at rest where appropriate;
- Role-based access controls;
- Multi-factor authentication (MFA);
- Network monitoring;
- Security logging;
- Vulnerability management;
- Secure software development practices;
- Regular backups;
- Disaster recovery procedures.

While Bhisha takes reasonable measures to protect information, no internet-based system or method of electronic storage can be guaranteed to be completely secure.

24. Backup and Disaster Recovery

To support business continuity, Bhisha maintains backup and disaster recovery procedures designed to protect critical systems and customer information.

Backups may be encrypted and stored in geographically appropriate locations or cloud infrastructure.

Backup copies may be retained for operational, legal, or disaster recovery purposes in accordance with applicable retention requirements.

25. Secure Deletion

When personal information is no longer required, Bhisha will take reasonable steps to securely delete, anonymize, or de-identify the information, unless continued retention is required by law, regulatory obligations, contractual commitments, fraud prevention, or legitimate business purposes.

26. Data Accuracy

Bhisha takes reasonable steps to maintain accurate and up-to-date personal information.

Customers are responsible for ensuring that the information they provide remains accurate, complete, and current.

Where inaccurate information is identified, Bhisha will take reasonable steps to correct or update it upon verification.

27. Security Incidents

If Bhisha becomes aware of a confirmed security incident affecting personal information, we will investigate the incident, take appropriate containment and remediation measures, and provide notifications where required by applicable law or contractual obligations.

28. Your Privacy Rights

Depending on your country, applicable law, and the Services you use, you may have certain rights regarding your personal information. Bhisha is committed to respecting these rights and will respond to valid requests in accordance with applicable law.

These rights may include the ability to access, correct, delete, restrict, object to, or obtain a copy of your personal information, subject to legal and operational limitations.

29. Right to Access

You may request confirmation of whether Bhisha processes your personal information and, where applicable, request access to the personal information we hold about you.

Subject to applicable law, we may verify your identity before responding to such requests.

30. Right to Correction

If your personal information is inaccurate, incomplete, or outdated, you may request that it be corrected or updated.

Customers are encouraged to keep their account information accurate through the customer dashboard whenever possible.

31. Right to Deletion

Subject to applicable law, you may request deletion of your personal information where:

- The information is no longer required for the purpose for which it was collected;
- You withdraw consent where consent is the legal basis for processing;
- Processing is unlawful; or

- Deletion is otherwise required by applicable law.

Bhisha may retain certain information where necessary to comply with legal obligations, resolve disputes, prevent fraud, maintain security, enforce agreements, or protect legitimate business interests.

32. Right to Restrict Processing

Where permitted by applicable law, you may request that Bhisha temporarily restrict the processing of your personal information under certain circumstances, including where the accuracy of the information is contested or processing is being challenged.

33. Right to Object

Where processing is based on legitimate interests or other lawful grounds recognized by applicable law, you may object to certain processing activities.

Bhisha will evaluate such requests in accordance with applicable legal requirements.

34. Right to Data Portability

Where required by applicable law and technically feasible, you may request a copy of certain personal information you have provided to Bhisha in a structured, commonly used, and machine-readable format.

Where applicable, you may also request that such information be transferred directly to another service provider where technically feasible and legally permissible.

35. Withdrawal of Consent

Where Bhisha relies on your consent to process personal information, you may withdraw that consent at any time.

Withdrawal of consent does not affect the lawfulness of processing carried out before the withdrawal and may affect your ability to use certain Services.

36. Marketing Preferences

You may opt out of receiving marketing communications from Bhisha by:

- Using the unsubscribe link provided in marketing emails;
- Updating your communication preferences within your account (where available); or
- Contacting Bhisha Support.

Please note that transactional, billing, security, legal, compliance, and service-related communications are essential for the operation of your account and may continue regardless of your marketing preferences.

37. Children's Privacy

Bhisha's Services are intended for businesses and individuals who are legally capable of entering into binding agreements under applicable law.

Bhisha does not knowingly collect personal information directly from children where prohibited by applicable law. If we become aware that personal information has been collected in violation of this provision, we will take reasonable steps to delete or otherwise handle the information in accordance with applicable legal requirements.

38. Sensitive Personal Information

Bhisha does not intentionally request or require Customers to submit sensitive personal information unless it is necessary for a specific Service or required by applicable law.

Where sensitive personal information is processed, Bhisha will apply appropriate safeguards and process such information only for lawful and authorized purposes.

Customers are responsible for ensuring they have an appropriate legal basis before submitting sensitive personal information through the Platform.

39. Exercising Your Rights

To exercise any applicable privacy rights, you may contact Bhisha using the contact details provided in this Privacy Notice.

Before fulfilling certain requests, Bhisha may require reasonable identity verification to protect personal information from unauthorized disclosure.

Requests will be reviewed and responded to within the timeframes required by applicable law. Where a request cannot be fulfilled, Bhisha will provide an explanation where legally permitted.

40. Complaints

If you believe that Bhisha has not handled your personal information in accordance with this Privacy Notice or applicable law, you may contact us so that we can investigate and seek to resolve your concerns.

Where provided by applicable law, you may also have the right to lodge a complaint with the relevant supervisory authority or data protection regulator in your jurisdiction.

Security, Artificial Intelligence & Cross-Border Processing

41. Information Security

Bhisha implements commercially reasonable administrative, technical, organizational, and physical safeguards to protect personal information against unauthorized access, disclosure, alteration, destruction, or accidental loss.

Our security program may include:

- Encryption in transit and at rest where appropriate;
- Multi-factor authentication;
- Role-based access controls;
- Secure software development practices;
- Security monitoring and logging;
- Vulnerability management;
- Regular backups and disaster recovery;
- Employee security awareness training; and
- Incident response procedures.

Although we employ appropriate safeguards, no system connected to the Internet can be guaranteed to be completely secure.

42. Artificial Intelligence and Automated Technologies

Bhisha may use artificial intelligence (AI), machine learning, automation, and analytical tools to improve platform performance, fraud detection, spam prevention, routing optimization, customer support, analytics, and product development.

Where required by applicable law, Bhisha will implement appropriate safeguards for processing involving automated decision-making.

AI-assisted features are designed to support operational efficiency and are not intended to replace human oversight where legally required.

43. Cross-Border Processing

As a global communications platform, Bhisha may process personal information in multiple jurisdictions to deliver Services efficiently.

Where applicable, Bhisha will implement reasonable contractual, organizational, and technical safeguards to support lawful international data transfers in accordance with applicable privacy laws.

44. Regional Privacy Compliance

Bhisha is committed to respecting applicable privacy and data protection laws in the jurisdictions where it operates. Depending on the location of our customers or end users, our processing activities may be subject to regional legislation such as:

- European Union General Data Protection Regulation (GDPR);
- United Kingdom GDPR and Data Protection Act;
- California Consumer Privacy Act (CCPA), as amended by the California Privacy Rights Act (CPRA);
- Brazil's Lei Geral de Proteção de Dados (LGPD);
- South Africa's Protection of Personal Information Act (POPIA);
- Singapore's Personal Data Protection Act (PDPA);
- India's Digital Personal Data Protection Act (DPDP Act);
- United Arab Emirates Personal Data Protection Law (PDPL);
- Saudi Arabia's Personal Data Protection Law (PDPL); and
- Other applicable national or regional privacy laws.

Bhisha will make reasonable efforts to adapt its practices to comply with mandatory legal requirements applicable to the Services provided.

45. Customer Responsibilities

Customers remain responsible for ensuring that any personal information they collect and process through Bhisha has been obtained lawfully and that appropriate notices, consents, and legal bases exist where required by applicable law.

Where Bhisha acts as a processor on behalf of a customer, the customer remains responsible for determining the lawful purpose of processing.

Third Parties, External Links & Policy Changes

46. Third-Party Services

The Platform may integrate with or provide access to third-party services, including payment providers, telecom operators, messaging platforms, cloud providers, identity verification services, and other technology partners.

Such third parties operate under their own privacy policies and terms. Bhisha is not responsible for the privacy practices of independent third-party services beyond the scope of our own processing activities.

47. External Websites

Bhisha.com may contain links to external websites operated by third parties.

We encourage users to review the privacy policies of those websites before providing personal information.

Bhisha does not control or endorse the privacy practices of external websites.

48. Policy Updates

Bhisha may update this Privacy Notice from time to time to reflect:

- Changes in applicable law;
- New products or services;
- Security improvements;
- Operational changes;
- Regulatory guidance; or
- Business developments.

Updated versions will be published on Bhisha.com with a revised "Last Updated" date.

Where required by applicable law, we will provide additional notice of material changes.

Continued use of the Services after the effective date constitutes acceptance of the updated Privacy Notice, to the extent permitted by applicable law.

49. Interpretation

If any provision of this Privacy Notice is determined to be invalid or unenforceable under applicable law, the remaining provisions shall continue in full force and effect.

Nothing in this Privacy Notice limits any rights that cannot be excluded or restricted under applicable law.

Contact Information & Final Statement

50. Contact Us

If you have questions about this Privacy Notice or wish to exercise your privacy rights, please contact us:

Legal Entity: Sen Rev Services Private Limited

Brand: Bhisha

Website: Bhisha.com

Privacy Email: privacy@bhisha.com

Legal Email: legal@bhisha.com

Support Email: support@bhisha.com

Additional contact information may be published on Bhisha.com from time to time.

51. Data Protection Contact

Where required by applicable law, Bhisha may designate a Data Protection Officer (DPO), Privacy Officer, or other authorized privacy representative.

Contact details for any designated privacy representative will be published on Bhisha.com where applicable.

52. Complaints

If you have concerns regarding the processing of your personal information, we encourage you to contact Bhisha first so that we can investigate and work toward a resolution.

Where provided by applicable law, you may also have the right to contact the competent privacy regulator or supervisory authority in your jurisdiction.

53. Governing Documents

This Privacy Notice should be read together with:

- Bhisha Terms & Conditions
- Terms of Use
- Refund Policy
- Cookie Policy (when published)
- Data Processing Addendum (where applicable)
- Product-specific terms and policies
- Any applicable enterprise agreement between Bhisha and the customer

In the event of any conflict, mandatory legal requirements shall prevail to the extent required by applicable law.

54. Final Privacy Statement

Bhisha recognizes that privacy is fundamental to trust. We are committed to processing personal information responsibly, transparently, and securely while providing reliable communication services to customers worldwide.

We will continue to improve our privacy and security practices as technology, business operations, and legal requirements evolve.
