

Terms of Use

1. Introduction

Welcome to Bhisha.com, a worldwide cloud communications platform that we own and run, called Bhisha for short, or the Platform or Website - we're all talking about the same thing, which is us, or our company. We're a part of Sen Rev Services Private Limited.

These Terms of Use govern your access to and use of the Bhisha website, customer portals, developer resources, documentation, dashboards, APIs, support services, and other digital properties operated by Bhisha.

These terms are separate, but you should read them together with our terms and conditions, privacy notice, refund policy, and any agreements that are specific to certain products. They all work together to give you a complete picture of how things work.

2. Acceptance of these Terms

By accessing, browsing, registering for, or using any part of Bhisha.com or its related services, you acknowledge that you have read, understood, and agree to be bound by these Terms of Use.

If you don't accept these terms, then you should stop using our website and any services we offer right away.

When you use our website for an organization, you're promising that you have the power to agree to these terms for them.

3. Scope

These Terms apply to all users of Bhisha's digital properties, including:

- Visitors to Bhisha.com
- Registered customers
- Enterprise customers
- Developers
- API users
- Partners and resellers
- Suppliers and vendors
- Job applicants (where applicable)
- Authorized users of customer accounts
- Any person accessing Bhisha-operated websites, portals, or applications

4. Eligibility

You may use Bhisha only if:

- You are legally capable of entering into a binding agreement under applicable law.
- When you use something, you have to make sure it's okay with all the rules and laws that apply.

- You are allowed to get our services because you are not breaking any laws about sanctions or exporting controls that apply to you.
- When you sign up, make sure the information you give is correct and complete. It's also important to keep this information updated.
- Bhisha may require identity or business verification before granting access to certain Services or features.

5. Website Purpose

Bhisha.com provides information about our company, products, services, pricing, documentation, APIs, developer resources, customer portals, support services, and other business offerings.

Some parts of the website might need you to sign up or only let in people who have been verified, like customers, partners, or authorized users.

The website might also give you access to new services that Bhisha will introduce in the future.

6. User Accounts

Some features require a registered account.

You are responsible for:

- Maintaining the confidentiality of your login credentials.
- Restricting unauthorized access to your account.
- Promptly notifying Bhisha of any suspected unauthorized use or security incident.
- Ensuring that all information associated with your account remains accurate and current.

You're in charge of everything that happens with your account, unless it's because of something we did wrong or didn't do to keep things secure.

7. Definitions

For the purposes of these Terms:

- "Account" means a registered Bhisha user profile.
- "Customer" means any individual or organization using Bhisha Services.

When we talk about the "platform", we're referring to Bhisha.com and everything that comes with it, like its apps, dashboards, APIs, and all the online services it offers.

When we talk about "Services", we're referring to all the different products and solutions that Bhisha offers.

When we talk about a "user", we're referring to anyone who visits or uses our website.

When we talk about a "website", we're referring to Bhisha.com and any other websites that are officially run by Bhisha.

8. Website Access

We're giving you permission to use our website, but only in a limited way. You can't share this permission with others, and we can take it away at any time. When you use our site, you have to follow the rules and only do things that are allowed by law.

To get into some parts of the website, like the customer dashboards, APIs, billing portals, partner portals, developer resources, and admin interfaces, you might need to sign up, log in, prove who you are, or agree to some extra rules. This is just to make sure everything runs smoothly and securely.

Bhisha reserves the right to modify, suspend, restrict, or discontinue any part of the Website at any time.

9. User Accounts

Users are responsible for maintaining the confidentiality of their account credentials and for all activities occurring under their account.

Users shall:

- Maintain accurate account information.
- Keep passwords confidential.
- Use strong authentication methods where available.
- Notify Bhisha immediately of unauthorized access.
- Prevent unauthorized use of their account.
- Comply with all account verification requirements.

Bhisha might need to check you out a bit more before it lets you use some of its more sensitive features.

10. Authentication and Security

To protect the Platform, Bhisha may implement:

- Multi-Factor Authentication (MFA)
- One-Time Passwords (OTP)
- Email verification
- Phone verification
- Business verification
- Identity verification
- CAPTCHA and bot protection
- Session management
- IP-based security controls
- Device recognition

Users shall not attempt to bypass or interfere with these security measures.

11. Acceptable Use

Users agree to access and use the Website responsibly and lawfully.

Users shall:

- Use the Website only for legitimate business or informational purposes.
- Respect applicable laws and regulations.
- Use the Platform in accordance with published documentation.
- Respect the rights of other users.
- Cooperate with reasonable security or compliance requests.
- Report suspected security vulnerabilities responsibly.

12. Prohibited Activities

Users shall not:

- Use the Website for unlawful purposes.
- Don't try to get into a system or account without permission.
- Reverse engineer or exploit the Website.
- Upload malicious software or code.
- Conduct phishing or fraudulent activities.
- Distribute spam.
- Circumvent security controls.
- Interfere with Platform performance.
- Attempt denial-of-service attacks.
- Scrape or harvest Website content without authorization.
- Misrepresent their identity.
- Upload unlawful, offensive, or infringing content.
- Violate intellectual property rights.
- Abuse free trials or promotional offers.
- Use automated systems in a manner that negatively affects Platform performance.

Bhisha can look into any suspected rule-breaking and take the necessary steps to deal with it.

13. Fair Use

Certain Website features, APIs, downloads, documentation, developer resources, demos, and free tools may be subject to reasonable usage limits.

- Bhisha may implement:
- Rate limits
- Download limits
- Session limits
- API quotas
- Fair usage monitoring
- Abuse prevention controls

These steps are in place to make sure everyone gets a good service.

14. Security Reporting

If you find a security problem with Bhisha, please let them know about it in a responsible way. You can do this by getting in touch with the security team through the contact information on the Bhisha website.

When you find a security problem, don't tell everyone about it right away. First, give Bhisha a fair chance to look into it and fix the issue.

15. Developer Resources

Bhisha may provide developers with access to:

- API documentation
- SDKs
- Sample code
- Technical guides
- Integration tutorials
- Sandbox environments
- API explorers
- Developer dashboards
- Code examples
- Software libraries

We've put together some helpful resources to make it easier for you to work with Bhisha Services.

16. API Access

To use the Bhisha APIs, you need to have the right authentication credentials, which are given out by Bhisha.

- Customers shall:
- Keep API credentials secure.
- Use APIs only as documented.
- Respect authentication requirements.
- Monitor API usage.
- Protect access tokens.
- Promptly revoke compromised credentials.

Bhisha may suspend compromised API credentials immediately where necessary to protect the Platform.

17. API Usage Requirements

- Customers shall not:
- Circumvent rate limits.
- Abuse API endpoints.

- Attempt unauthorized access.
- Interfere with API availability.
- Perform excessive automated requests.
- Misuse authentication mechanisms.
- Reverse engineer undocumented APIs.
- Use APIs for unlawful activities.

Bhisha might stop you from using their API for a little while or forever if they think you're using it in a way that's not allowed.

18. Sandbox Environment

Bhisha may provide testing or sandbox environments to assist with development.

- Sandbox environments:
- Are intended for testing purposes only.
- May contain simulated data.
- May have reduced functionality.
- May be reset without notice.

You shouldn't count on it for important jobs. It's not a good idea to use it for things that really matter.

Bhisha does not guarantee continuous availability of sandbox environments.

19. Beta and Preview Features

Bhisha may release beta, preview, experimental, or early-access features.

- Such features:
- May change without notice.
- May contain defects.
- May not be production-ready.
- May have limited support.
- May be withdrawn at any time.

When you try out new features that are still being tested, you're taking on the risks that come with it.

20. Technical Documentation

We give you things like guides on how to do stuff, references for APIs, tutorials to help you learn, and articles with lots of information. These are all here to help you out.

Bhisha may update documentation periodically to reflect product improvements or technical changes.

Customers are responsible for ensuring their integrations remain compatible with supported API versions.

21. Downloads and Software

Where Bhisha provides downloadable software, SDKs, libraries, mobile applications, or utilities:

- The software is licensed, not sold.

You can only use it with Bhisha Services.

You can't share or change this, or try to figure out how it works, unless you have permission. You also can't use it to make money if you're not allowed to.

22. API Availability

Bhisha may modify, update, version, suspend, or discontinue APIs to improve security, performance, or functionality.

When possible, Bhisha gives a heads up before stopping support for old API versions and might even offer some help with moving to a new version.

23. Ownership of Intellectual Property

All the rights to everything about Bhisha, like the website, the platform, and all the software, belong to Sen Rev Services Private Limited. This includes things like the special codes that make the website work, the way it looks, the logos, and even the reports they make. These are all protected by laws that apply to ideas and creations, and also by international agreements.

When you use our service, you don't automatically own anything. The only rights you get are the ones we clearly state in these Terms.

24. Copyright

All content published on Bhisha.com, including text, graphics, icons, images, videos, documentation, code samples, tutorials, product descriptions, reports, downloads, and other materials is protected by copyright laws.

You can use the materials on our site for your own business, but only if you follow the rules. This means you can look at, download, or print a reasonable amount of the material, as long as it's just for your own company's use and you don't break any laws. Also, you have to make sure all the copyright and proprietary notices stay exactly as they are.

Unauthorized reproduction, republication, distribution, public display, commercial exploitation, or creation of derivative works is prohibited without prior written consent from Bhisha.

25. Trademarks

The "Bhisha" name, the Bhisha logo, and other product and service names are all trademarks that belong to Sen Rev Services Private Limited, or the companies that license them. This includes things like slogans, icons, and graphics - they're all protected trademarks.

You can't use our trademarks without permission. This means you can't copy or modify them, or use them in your domain names, business names, apps, ads, or marketing stuff. You need to get written approval from us first.

26. License to Use Website Content

Bhisha lets users look at and use the stuff on their website, but only if they follow the rules. They can only use it for good reasons, like learning more about Bhisha or for business. And they can't share it with others or use it for anything else. It's like a special permission that can be taken away if they don't behave.

- This license does not permit:
- Commercial redistribution.
- Resale of content.
- Republishing documentation.
- Creating competing products using Website content.
- Automated scraping beyond lawful indexing by search engines.
- Modification or removal of proprietary notices.

27. Documentation License

We provide a range of tools to help you work with Bhisha Services, including guides for developers, information about our APIs, and advice on how to use our software kits. You'll also find tutorials, examples of code, and other resources to make it easier to get started and implement our services.

You can't copy or share our documents without getting permission first, unless we say it's okay.

Bhisha may update documentation periodically to reflect new functionality, security improvements, or API changes.

28. Open Source Components

Some of the tools or libraries that Bhisha provides might include parts that are open-source, and these parts are covered by their own special licenses.

These terms don't affect any rights you have under open-source licenses that apply.

When you use something that has parts from other people, you still have to follow the rules that those people set. This is true even if you're using those parts in a different way.

29. User-Generated Content

- Where the Website permits Users to upload reviews, feedback, comments, files, templates, suggestions, support requests, or other content, Users remain responsible for ensuring that such content:
- Is lawful.
- Does not infringe third-party rights.
- Is not defamatory, abusive, fraudulent, or misleading.

- Does not contain malicious software.
- It should not break any laws or go against these rules.

Bhisha can look at and remove any content that users create if it seems to break the rules or the law, but they don't have to do this. They have the right to say no to any content that doesn't follow the rules, and they can stop people from seeing it if they want to.

30. Feedback

When you give us ideas or suggestions about how to improve Bhisha Services, you're letting us use them however we want. This means we can change them, put them into action, publish them, or even sell them, without having to pay you or ask for your permission, unless we've agreed otherwise in writing. By sharing your thoughts with us, you're giving us a free pass to do what we think is best with them, anywhere in the world, forever.

31. Customer Communications

When you use Bhisha, you're agreeing to get messages from us that we think are necessary to keep the platform running smoothly.

- Account notifications.
- Security alerts.
- Login verification codes.
- Billing notices.
- Service announcements.
- Product updates.
- Maintenance notifications.
- Legal notices.
- Compliance communications.
- Support responses.

We'll only send you marketing messages if the law says it's okay. You can also choose how you want to hear from us, so you're in control of what you get.

32. Customer Support

- Bhisha provides customer support through channels published on the Website, which may include:
- Support Portal.
- Email.
- Live Chat.
- Ticketing System.
- Knowledge Base.
- Documentation.
- Community Resources.
- AI-powered Support (where available).

Support availability, response times, and service levels may vary depending on the customer's subscription plan or applicable agreement.

33. Community Standards

Where Bhisha offers forums, community discussions, knowledge-sharing platforms, or other collaborative spaces, Users agree to:

- Treat others respectfully.
- Avoid abusive or discriminatory conduct.
- Share accurate information where possible.
- Respect intellectual property rights.
- Avoid posting confidential information belonging to others.
- Comply with applicable laws and these Terms.

Bhisha has the right to control what's on their site, so they might edit, delete, or limit anything that doesn't meet their rules.

34. Third-Party Services

Bhisha may integrate with or provide access to third-party services, including:

- Payment gateways.
- Cloud providers.
- Mobile network operators.
- Messaging platforms.
- Meta services.
- Email providers.
- Identity verification services.
- Analytics providers.
- Business productivity tools.

Use of third-party services may be governed by the applicable terms and privacy policies of those providers.

Bhisha doesn't control what other companies do with their own products and services. They are separate and Bhisha is not accountable for their actions.

35. External Links

The website might have links to other sites that can be helpful or interesting to look at.

Bhisha isn't in charge of what's on other websites, and it doesn't guarantee they'll be available or that their privacy policies are okay.

Users access third-party websites at their own discretion and should review the applicable terms and privacy policies.

36. Educational Content

Articles, tutorials, implementation guides, blogs, webinars, videos, documentation, whitepapers, FAQs, and other educational materials are provided for general informational purposes.

Bhisha tries to keep the information up to date and accurate, but it's not meant to be taken as legal, financial, or professional advice - it's just for general guidance.

Users should seek independent professional advice where appropriate.

37. Marketing Materials

Case studies, testimonials, statistics, product demonstrations, illustrations, and marketing examples published by Bhisha are intended for informational purposes only.

Actual performance, delivery rates, customer outcomes, and business results may vary depending on individual circumstances, destination countries, telecom operators, and other factors beyond Bhisha's control.

38. Future Services

Bhisha may introduce additional products, services, communication channels, AI capabilities, developer tools, integrations, or digital platforms over time.

If we don't publish separate terms for something new, these Terms of Use will still apply, along with any other terms that are specific to that product.

39. Website Availability

Bhisha tries its best to keep its website and online services available, secure, and running smoothly. But it can't promise that you'll always be able to access them without any problems or interruptions. Sometimes things might not work perfectly, and that's just something to be aware of.

The Website may be unavailable due to:

- Scheduled maintenance;
- Emergency maintenance;
- Security incidents;
- Software updates;
- Infrastructure upgrades;
- Internet or telecommunications failures;
- Third-party service interruptions; or
- Events beyond Bhisha's reasonable control.

Bhisha shall not be liable for temporary interruptions or delays resulting from such events.

40. Security

Users are responsible for maintaining the security of their devices, networks, credentials, API keys, and accounts.

- Users shall:
- Protect login credentials.
- Use strong passwords.

- Enable Multi-Factor Authentication where available.
- Promptly report suspected security incidents.
- Avoid sharing credentials with unauthorized persons.

Bhisha might need to stop you from using the platform if it's necessary to keep the platform and other users safe.

41. Cookies and Analytics

Use of cookies, analytics technologies, and similar technologies is governed by the Bhisha Privacy Notice and any applicable Cookie Policy.

If you keep using our website, you're agreeing that we can use certain technologies, as long as we're following the law and our own rules.

42. Disclaimer of Website Information

The stuff on Bhisha.com is just for general information, it's not meant to be taken as advice or anything like that.

We try our best to keep our information accurate and up to date, but we can't promise that everything is perfect, complete, or suitable for what you need. Sometimes mistakes can happen, and things might not be entirely current.

Product specifications, pricing, availability, documentation, and technical information may change without prior notice.

43. No Professional Advice

Unless expressly stated otherwise, information available on the Website does not constitute legal, financial, tax, regulatory, investment, telecommunications, cybersecurity, or other professional advice.

Users should obtain independent professional advice before relying on Website information for business or legal decisions.

44. Limitation of Website Liability

When you use our website, we aren't responsible for some types of damages that might happen. This includes things like losing money, your business being interrupted, or losing important data. We also aren't responsible for damaging your reputation or any savings you were expecting. This is as long as the law allows us to limit our responsibility.

If the law doesn't allow us to avoid being held responsible, then Bhisha's responsibility will be limited as much as the law allows.

45. Suspension and Restriction of Access

Bhisha may suspend, restrict, or terminate access to the Website or specific features where reasonably necessary to:

- Protect Platform security.
- Prevent fraud or abuse.
- Investigate violations of these Terms.
- Comply with applicable laws or regulatory requirements.
- Respond to court orders or lawful governmental requests.
- Protect the rights, property, or safety of Bhisha, its customers, or third parties.

When possible and allowed by law, Bhisha will give fair warning.

46. User Responsibilities

Users are responsible for:

- Complying with applicable laws.
- Providing accurate information.
- Maintaining account security.
- Respecting intellectual property rights.
- Using the Website responsibly.
- Following published documentation and guidance.
- Ensuring authorized use of their accounts.

47. International Users

Bhisha is a global company, so it works with people all around the world. If you're using our website from a different country, you need to make sure you're following the laws in your area when you use our site and services.

Availability of products, features, pricing, communication channels, and regulatory requirements may vary by jurisdiction.

48. Compliance with Laws

Users agree not to use the Website or Services in violation of:

- Telecommunications regulations;
- Privacy and data protection laws;
- Consumer protection laws;
- Export control or sanctions laws;
- Anti-spam legislation;
- Intellectual property laws; or
- Any other applicable legal requirements.

49. Governing Law and Dispute Resolution

These terms are controlled by the laws that apply to Sen Rev Services Private Limited, except when another law says something different has to happen.

When problems come up, we want to try to solve them by talking it through first. If that doesn't work, either side can look for other ways to fix the issue, like going to court or using

a different method to resolve the dispute, as long as both parties agree and it's allowed by law. We'll work together to find a solution that's fair and reasonable.

50. Amendments

Bhisha may modify these Terms of Use from time to time to reflect changes in law, technology, business operations, security practices, or the Services offered.

You can find the latest versions on Bhisha.com, they will have the new effective date on them.

If you keep using the website after the changes take effect, it means you agree to the new terms, as long as the law allows it.

51. Entire Agreement

When you use our website, you're agreeing to a few different rules. These rules include our Terms of Use, Terms and Conditions, Privacy Notice, and Refund Policy. We also have a Cookie Policy, which we'll publish soon. And if you're using a specific product or service, there might be some extra agreements you need to follow. All of these rules together make up the complete agreement about how you can use our website.

52. Severability

If a part of these rules is found to be invalid or can't be enforced, the rest of the rules will still apply and be followed as much as possible under the law.

53. No Waiver

If Bhisha doesn't enforce a particular rule or right, it doesn't mean they're giving up on it. They can still use it later if they need to.

54. Assignment

You can't pass on your rights or responsibilities under these Terms to someone else without first getting permission from Bhisha in writing.

Bhisha may assign its rights and obligations to an affiliate, successor, or as part of a merger, acquisition, restructuring, or sale of business assets.

55. Electronic Acceptance

When you use Bhisha.com, make an account, download things, use our APIs, or do anything with our services, you're agreeing to our terms. It's like signing your name, but online - and it's just as official as a handwritten signature, as long as the law says that's okay.

56. Contact Information

If you have any questions about these Terms of Use, you should get in touch with us.

Legal Entity: Sen Rev Services Private Limited

Brand: Bhisha

Website: Bhisha.com

Legal Email: legal@bhisha.com

Support Email: support@bhisha.com

You might find more ways to get in touch with us on Bhisha.com - we'll be adding new contact details every now and then.

57. Final Statement

At Bhisha, we're dedicated to giving businesses worldwide a communications platform that's safe, honest, and always improving. Our goal with these Terms of Use is to make sure everyone uses our Website and Services responsibly, while also protecting the rights of our users, partners, and our own company. We want to create a fair and respectful environment for everyone involved.

We're thankful you chose Bhisha and we're excited to help you with your communication needs. We're always working to make our products and services better and available to more people around the world.
